## Dr. Baldwin Appointed Vice-President (Academic)

Following a special meeting of the Board of Governors on 27 September, it was announced that R.G. Baldwin had been appointed the University's Vice-President (Academic). He will take up the duties of the position on 15 October for an initial period of five years.

The vice-presidency had been open since 1 August when the incumbent, Dr. Horowitz, became President of the University.

Dr. Baldwin, Dean of the Faculty of Arts since 1972, has accumulated a good deal of experience regarding university governance through previous memberships on the Board of Governors, the Senate, and The Association of the Academic Staff. He sits on General Faculties Council and is an elected member of the Executive Committee of GFC.

A native of Vancouver, Dr. Baldwin is fifty-two years of age. He received his BA from the University of British Columbia in 1948 and his MA from the University of Toronto the following year. His doctorate was secured from the latter institution in 1957 after he had taught at The University of Alberta as an English lecturer and Assistant Professor.

He returned here in 1958 as Associate Professor of English and was promoted to the rank of Professor in 1963. Dr. Baldwin was appointed Chairman of the Department of English in 1967. Prior to being appointed Dean of the Faculty of Arts, he was

Associate Dean (Planning and Development) of the Faculty.

Dr. Baldwin served as Vice-President of the Association of Canadian University Teachers of English in 1970 and 1971 and is currently President of the Canadian Association of Deans of Arts and Science.

Among the organizations in which he holds membership are the International Association of University Professors of English, the Canadian Council of Teachers of English, the Modern Language Association, and the Humanities Association of Canada.

As defined in the University Calendar, the Vice-President (Academic) is the senior vice-president. In the absence or incapacity of the President or when the presidency is vacant, he is the acting president. He is *ex officio* a member of the Coordinating Council of the Universities, GFC, and the Senate. □

## Triple Celebration for the University's Libraries

Three very special events will take place on Saturday, 6 October, in the Bibliography Room, Rutherford North at 2 p.m. In one ceremony, the two-millionth book will be presented to the University, rare literary and historical works will be presented in honor of retiring members of faculty, and a memorial fund will be presented in honor of the late Professor Emeritus Dr. A.J. Cook.

The two-millionth volume to be received into our library, *Jumonville, Poeme*, by Antoine-Leonard Thomas (Paris: 1759), will be presented on behalf of its donor, the General Alumni Association, by Morris Flewwelling, President of the GAA. The recipient on behalf of the University will be President Horowitz and the ceremony will be chaired by the Librarian to the University, Bruce Peel. On the presentation of the volume, the work will be described by John Charles, Special Collections Librarian.

*Jumonville, Poeme* is a celebrated poem in which the attitude is taken that Washington admitted responsibility for the assassination of Joseph de Jumonville in 1754. Apparently, it was de Jumonville's death which initiated the hostilities of the French and Indian War.

According to Mr. Charles, the poem gives an account of the circumstances of de Jumonville's death. The author, A.-L. Thomas, suggests that the British, after the Peace of Aix-la-Chapelle in 1748, violated the Treaty by taking Fort Necessity on French-

Canadian territory. The French commander demanded their withdrawal and after a short while despatched de Jumonville to ascertain if they had retired.

De Jumonville's party was surprised by the British and de Jumonville was killed when the British had discovered his purpose. The copy of the poem to be presented to the University is the only example of the rare first edition known of in Canada and one of only five in the North American continent.

Following the presentation of the two-millionth volume, there will be two other presentations: one of books honoring retiring members of faculty and the other the presentation of a memorial fund established in honor of the late Professor A.J. Cook.

The books to be presented in honor of retiring faculty members on behalf of The Friends of The University of Alberta by their President, The Hon. Mr. Justice Allan H. Wachowich, are also quite special and deserve a brief description. In alphabetical order of author they are: George Forster, *A Voyage round the World, in His Britannic Majesty's Sloop, Resolution, Commanded by Capt. James Cook, During the Years 1772, 3, 4, and 5* (volume 1 and 2, London: 1777). This work comprises a naturalist's account of Captain Cook's second voyage. It is significant not only from the viewpoint of Cook's own later narrative but also because it started a new genre of literary-scientific travel

narratives which influenced such writers as Goethe, Von Humboldt, and a generation of German traveller-scholars.

Marc Lescarbot, *Histoire de la Nouvelle France*, published with *Les muses de la Nouvelle France* (Paris: 1618). The volume contains the first drama ever to be performed in North America. The masque celebrates Poutrincourt's return to Port Royal, Acadia in 1606. Lescarbot's major work, the *Histoire*, includes information on the Indians of northeastern America, as well as a comparative study of North and South American natives.

Francesco Petrarca, *Opera Quae Extant Omnia* (Basel: 1554). This volume is a prize. It is the rare first collected edition of Petrarca's works in Latin and Italian and remains (with the reprint of 1581) the only approximately complete edition to date. The copy is from the library of the Dukes of Anhalt, Dessau.

Tobias Smollett, *The Adventures of Peregrine Pickle. In which are included, memoirs of a lady of quality* (volume 1-4, London: 1751). This is the first edition of Smollett's second and brilliantly

successful novel which contains savage attacks on prominent literary and theatrical figures, attacks which were removed from later editions.

Samuel Hill Wilcocke, *A Narrative of Occurrences in the Indian Countries of North America* (London: 1817). Following the appearance of Lord Selkirk's pamphlet in 1816 which attacked the North West Company's actions in the Red River controversy, the Company issued this work. It refutes Selkirk's charges and attempts to lay blame on Selkirk's egomania for the bloody incidents. The *Narrative* is attributed to Wilcocke, a writer for the North West Company. It is a primary source in Canadian history.

William Butler Yeates, *Poems written in discouragement 1912-1913* (Dundrum: 1913). This collection of poems was printed in only fifty copies and is extremely rare. The copy fills one of the few gaps in the University Library's extensive Cuala Press collection.

Dr. Horowitz will express the appreciation of the retirees.

After the presentation of the

books, Mrs. Grace Cook will present the Memorial Fund in Honour of the Late Professor A.J. Cook.

Professor Cook entered The University of Alberta when seventeen. He served in the Great War and, having returned to the University, graduated in 1920 with honors in Mathematics. Among the many awards he received was the Governor General's Medal for General Proficiency.

Appointed as Lecturer in Mathematics, Alexander Joseph Cook worked on his master's degree which he obtained from Harvard University in 1923. He was appointed Assistant Professor in 1928, gained his PhD from the University of Chicago in 1929, and, in 1930, was elevated to the rank of Associate Professor. His career in the Department of Mathematics was long and meritorious, and he also maintained an active interest in the welfare of students. In 1946 he became the Advisor to veteran students and, with the rank of Professor, was appointed in 1950 as Director of Student Advisory Services, the forerunner of Student Coun-

selling Services. He continued in this capacity until his retirement in 1961. Dr. Cook, however, as Professor Emeritus (Mathematics) continued to teach at the University on a sessional basis until 1965. Dr. Cook died on 4 April 1977.

The Memorial Fund to be presented to the University on 6 October has been established by his family for the purchase of books for the Undergraduate Library. The collection covers a wide range of topics including the philosophy of mathematics, career guidance, women and the family, philosophy of religion, and some basic reference books in mathematics.

After the three presentations, Dr. E.J.H. Greene, Professor Emeritus of Romance Languages and one of the retiring faculty members to be honored on 6 October, will deliver a talk titled "Reminiscences of the Campus."

The ceremonies which will take place in the Bibliography Room, Rutherford North, are open to all members of the University community. There will be a reception afterwards. □

The month of October has been designated "International Energy Conservation Month" by the twenty member nations of the International Energy Agency. As a member of the IEA, Canada will be an active participant.

The international energy picture has changed dramatically in the seventies. In Canada, for example, every barrel of crude oil imported in 1979 costs eight times as much as the same barrel in 1970. By 1985, if Canadian supply and conservation policies prove to be ineffective, we could become dependent on foreign oil imports for forty percent or more of our oil demand. Reducing our reliance on imported oil is a major national objective, and conservation can make a vital contribution toward achieving the national goal of self-sufficiency.

The Federal and Provincial Governments are actively participating in this international program of energy conservation awareness.

The University of Alberta, which has an active energy conservation program well underway, again wishes to draw the issue of general energy usage to the attention of faculty, students and staff. The University wishes to promote a personal effort, both at work and at home, to reduce the wasteful uses of energy. The practice of energy conservation needs to be a permanent commitment by every individual.

Some practical options available to the individual are as follows:

- Lower your thermostat to 20°C (68°F) for daytime heating;
- Have your hot water heater thermostat lowered to 49°C

(120°F);

- Buy only returnable beverage bottles;
- Upgrade your home insulation. Ask for a free ENER\$AVE insulation audit from Energy Mines and Resources Canada.
- Enquire about a grant under the Canadian Home Insulation Program (CHIP). Up to \$500 is available for houses built before 1961;
- Organize a car pool or use rapid transit;
- Drive at a moderate speed. Travelling at 90 km/h (55 mph) instead of 110 km/h (70 mph) will save as much as 20 percent on your fuel bill; and
- Have your automobile tuned for maximum efficiency and reduce your gasoline consumption by up to 10 percent. □

## Alumni Homecoming 1979

The coming weekend, 5 to 6 October, marks a very special entry in the calendar of alumni of The University of Alberta—the annual Alumni Homecoming.

This year, as in the past, several events have been planned which will be of great interest for our alumni. On Friday night, there will be a wine and cheese party at The Faculty Club from 8 p.m. to 10 p.m. This party offers our former students the opportunity to “Meet the Prof’s” and promises to be as entertaining as it has been in previous years with alumni from almost every graduating class participating and exchanging reminiscences of recent (or less recent) events.

Saturday, 6 October, will also be a full day. In the morning, at 10 a.m., there will be a campus tour starting from the Galleria in the Rutherford Library. In

the afternoon, in addition to the presentation of the University's two-millionth book by Morris Flewwelling, President of the General Alumni Association, there will be the annual “Homecoming Special,” the football

game between the Golden Bears and the Calgary Dinosaurs in the Varsity Stadium. A pre-game lunch will be served at 11:30 a.m.

In the evening of Saturday, 6 October, there will be the annual Homecoming Reception

at Lister Hall, from 6:30 p.m. to 7:30 p.m. This reception will be followed by the traditional Homecoming Banquet and Ball, also in Lister Hall, from 7:30 p.m. to 1 a.m. The banquet, and indeed the whole weekend, will honor members of several graduating classes. The special classes to be honored this year are those of '19, '29, '39, '54, '59, '69, and '74.

Tickets for all the regular Homecoming events are available from the Alumni Office in 420 Athabasca Hall (telephone 432-3224). The costs are as follows:

Wine and Cheese Party  
\$3 per person  
Banquet and Ball \$10 per person  
Lunch and Football Game  
\$2.50 (adult) \$1.50 (children)

Plan to attend! □

## Edmonton to Host Major Athletic Competition

Edmonton will be the site for a world class athletic competition in October. The fourth in a series of five competitions for the inaugural Pacific Gymnastics Championships will be held in the Edmonton Coliseum on 9 October at 8 p.m.

The Pacific Gymnastics Championships will feature national teams from seven countries in a series which began in Hawaii this week on 1 October. A unique feature of the Championships is the method of scoring, which will be on a cumulative points basis. The manner of scoring, therefore, will provide an added dimension of excitement as one will be able to follow team and individual standings as the competition progresses at each of the five sites.

Each national team will comprise three men and three women. The teams represent the following countries: the current Olympic and Men's World Champions, Japan; the People's Republic of

China (according to Lou O'Hara, Sports Information Director, the “dark horse” of the competition); Canada, the United States, Australia, New Zealand, and Mexico. The Canadian participants include such notable gymnasts as Phillip De La Salle, the Canadian Men's Champion, Elfie Schlegel, Gold Medallist in the 1978 Commonwealth Games; and Bonnie Wittmeir, the Canadian Junior Champion and Canada Games Gold Medallist in 1979. The United States contingent also includes several strong competitors; for example, Kurt Thomas, Gold Medallist in the 1978 World Championships; Leslie Pyfer, USA All Round Champion in 1978; and Bart Conner, who so far this year is ranked above Thomas.

The competition to be held next Tuesday night is the fourth in the series. The first stage was held in Honolulu on 1 and 2 October; the second will be held tonight, 4 October, in Portland, Oregon; the third meet will take place on

*Elfie Schlegel in the Inaugural Pacific Gymnastics Championships sponsored by 20th Century-Fox Sports. (Photo by John C. Bovard)*

Saturday, 6 October, in Seattle; and the final meet is scheduled for 11 October in Vancouver.

Tickets are available for the competitions to take place in the Coliseum. Regular prices are

\$6, \$8, and \$10. Students and staff of The University of Alberta, however, may obtain a special discount of \$2 off the price of a ticket. The discount may be gained by ordering tickets at the main Athletic Office, W1-34 PERC. Unfortunately, the special discount offer ends today at 4:30 p.m. (Thursday, 4 October), with the result that many readers of *Folio* may not have the opportunity to benefit from the offer. Regular tickets, however, will be available until the start of the competition in the HUB ticket office, Edmonton Northlands Box Office, Mike's, and in all Woodward's Stores.

The Pacific Gymnastics Championships will feature world-class competitors and will provide on Tuesday a splendid opportunity of seeing members of our national team in person, before they embark on the 1979 World Championships in Fort Worth, Texas, and the Olympic Games in Moscow next summer. □

## International Conference in Edmonton

The second national conference hosted by the Canadian Association For Children With Learning Disabilities is about to open here in Edmonton at the Edmonton Plaza Hotel. Some sixty-one papers or workshops will be presented during the three-day conference from 10 to 12 October.

Delegates who will be in attendance at the conference come from the United States, Canada, and this province. A high percentage of the speakers are associated with activities at The University of Alberta.

Keynote speaker Jack Canfield will set the theme for the conference with an address entitled *Education in the New Age*. Mr. Canfield is the Director of the Institute for Wholistic Education, in Amherst, Massachusetts.

Topics to be presented during the conference cover a wide variety of subjects related to learning disabilities. The presentations will range from the prevention of learning disabilities and their causes, to the development of programs to successfully aid the sufferers of the disability. Other areas to be discussed include the role of parents, the relationship between learning problems and juvenile delinquency, and the emotional problems of handicapped children.

In conjunction with the conference an exhibit of books and other learning materials will be held in the Macdonald Hotel. New and pertinent learning aids will be presented by publishers of learning materials. □
